

# CELEBRATING HOPE AND HEALING FOR A LIFETIME

**COA AWARENESS WEEK**  
February 10-16, 2019

Addiction continues to be a national health epidemic. Overdose rates are still on the rise. Children living with parental addiction are vulnerable to the pain, isolation, and fear every single day.

But it doesn't have to be that way!

With the right support, children can begin to heal. With appropriate services, children can learn how to live without shame. With hope, resilience is possible.

COA Awareness Week recognizes the challenges for kids and teenagers impacted by a parent's struggle with addiction, and celebrates the recovery of thousands of children supported by caring adults.

Help make a difference that could last a lifetime!
